

anywhere
in IT together

our focus

We find intelligent, transparent and secure IT solutions and we would be happy to be your guide in the complex, rapidly changing IT landscape

Partners & Certificates

our promises

TOGETHER WE FIND...

IT solutions that work for you

IT Anywhere is no longer a rookie (founded in 2004). With our expertise and experience, we respond flexibly to the most wide variety of IT questions. We help you to clarify exactly what your IT needs are and which sustainable IT solutions work best for you.

IT solutions that are transparent

Investing in IT is necessary, but it must be done properly to pay off. We make smart use of your IT budget and provide a clear overview of all costs. Our Gold, Platinum and Silver contracts are clearly arranged and offer you services at a fixed monthly rate. This way you avoid financial surprises.

IT solutions that are secure

Ransomware, phishing and hacking are just some of the IT threats that can seriously compromise your business continuity. We analyze the risks for you and develop a reliable security plan. In addition, we offer high-quality cyber solutions and, as an ISO 27001 certified company, we guarantee optimum security of your data and privacy.

THIS WAY WE GUARANTEE...

"Service desk" with our certified engineers

24/7 availability of your IT systems

Smart use of your IT budget

Minimal impact in case of technical problems

Your IT optimally secured

our services
